

Alliance Pharmaceuticals Ltd together with its dermatology brand Hydromol® is delighted to support the BDNG. The Hydromol® range of products includes ointments, creams, and bath additives which are principally used in the UK to treat common dry skin conditions such as Eczema and Psoriasis. The Hydromol® range can be used individually, or together as a Complete Emollient Therapy regime.

For more information about our company and range of Hydromol® products please visit www.hydromol.co.uk
