

LA ROCHE-POSAY & CERAVE ARE COMMITTED TO IMPROVING SKIN HEALTH FOR EVERYONE THROUGH THEIR SUPPORT TO HEALTHCARE PROFESSIONALS IN IMPROVING PATIENT QUALITY OF LIFE.

Each of our skincare expertise brands, unique with its specific range of complete skincare solutions, is developed with skincare experts and backed by decades of research. Our products are designed and tested to give the maximum results within the strictest of formulations. Providing high quality ingredients through innovative delivery systems and advanced technology, our clinically proven products help to manage skin concerns ranging from Acne, Eczema, Sun Care to the appearance of signs of ageing.

Since 40 years, our research team has conducted over 1000 clinical studies and more than 60 publications in peer reviewed journals.

LA ROCHE-POSAY & CERAVE products are recommended by UK dermatologists and GPs and are suitable for sensitive skin.

LA ROCHE-POSAY has pioneered in the skin microbiome research since 2011 and conducted over 19 clinical studies with 13 publication in this field.

LIPIKAR BAUME AP+M for eczema prone skin has been clinically proven to be safe from 1st days of life.

CERAVE with its skin ceramide replenishing properties has been clinically proven to restore the skin barrier and provides significant hydration in comparison to commonly prescribed emollients, The **RESTORE STUDY** conducted by Professor Michael Cork and his team, which has been published on [PubMed](#).

LA ROCHE-POSAY & CERAVE Products are:

- Allergy tested
- Tested on the most sensitive skin
- Use minimalist formulas
- Developed in partnership with dermatologists
